SUMMARY

Product leader whose signature expertise is spatial technology and AI in government. Directed ArcGIS Enterprise compatibility programs across 350+ agencies, led AI-assisted discovery for two product launches, and own GIS, Public Portal, Platform Security, and Reporting and Insights for Accela's core platform. Retained \$2.17M ARR through a 121-customer program while shipping a 0-to-1 damage assessment product.

KEY ACHIEVEMENTS

- \$2.17M ARR retained through 121-customer EOL program with 15 features across 12 epics
- Directed ArcGIS Enterprise compatibility across 350+ government agencies
- Shipped 0-to-1 Rapid Damage Assessment product using AI-assisted discovery with 30 agencies

EXPERIENCE

Accela, Inc

Mar 2021 – Present

Market leader in process automation software for state and local governments

Product Manager, GIS & Platform · Remote

- Directed ArcGIS Enterprise upgrade posture for 350+ active customers, performing compatibility analysis, endpoint validation, customer communications, and rollout planning across Accela Civic Platform integrations
- Drove successful go-to-market launch of Rapid Damage Assessment solution using AI-assisted discovery with ~30 agencies and ~150 interviews, resulting in a spatial-first emergency response product and early customer onboarding
- Led 12-person cross-functional team to define and develop platform implementation tools, reducing implementation time and costs by 50% to meet critical market demand
- Led go-to-market execution for Service Request Management (SRM/CRM) solution, generating strategy, roadmap, and 22 solution assets; resulted in ~10 customer launches and ~\$150K ARR within 12 months
- Headed EOL program for legacy CRM application, securing executive and board approval; retained 121 customers and \$2.17M ARR through ~15 features across 12 Jira epics, 100+ defect fixes, and management of ~50 customer incidents
- Drove resolution of critical and high-severity defects, achieving 75% reduction in historical defect backlog and significant CSAT score improvement over the period
- Managed customer outreach for critical API scripting migration across ~150 customers, achieving 97% conversion rate by deadline through direct email and outreach campaigns

Poynt

Nov 2019 – Jul 2020

Payment software technology company

Product Sales Associate · San Francisco, CA

- Closed new business to achieve 150% of sales quota for the period
- Managed onboarding for 50+ customers across hardware and software setup for specific merchant requirements
- Designed and implemented post-purchase customer outreach program that increased customer retention by 30% over program period
